※To make an easier and more convenient application process, on behalf of the applicant and with the permission of both the applicant and applicant’s family, the Board of Education can retrieve the required information from the City of Osaka’s Individual Municipal Tax Registry for verification. This applies to city residents (as of January 1, 2022)

However, tax information which can be retrieved will be limited to that of the current fiscal year (FY2022), and hence if the applicant is applying because he/she was exempt from Citizen’s Tax for the previous fiscal year, all household members (those born on or before April 1, 2004; this does not include declared dependents or spouse of the head of the household who is eligible for tax deduction) must submit documentation as proof.

In the case that no tax declaration has been made, the child’s school or Board of Education may contact you separately. Also, since not all the required information can be retrieved for all cases, you may be asked to provide supplementary documentation as proof.
