A state of emergency has been declared School closure will continue

From the view point of infection prevention, school closures will continue until May 6 (Sunday) . Children will spend time quietly at home, they cannot come to school.

1 The first day of school starts will be announced later.

2 We will give you textbooks and homework

so that your child can study at home.

【The day to give textbooks and homework】

April 12(Sunday) ,13 (Monday) ,14(Tuesday)

am 9 : 0 0 ~ 1 2 : 0 0

Please come to collect the materials at a fixed time.

If you come, wear a mask, wash your

hands and disinfect your belongings.

Please bring a large bag for textbooks and homework.

- 3 If you have any trouble at home, such as being unable to spend time with family members, consult your school.

ひらのしょう
(平野 小学校 (ひらのしょうがっこう) (☎ 06-6791 — 6626)

- 4 Contact the school immediately if:

① A child has been infected with the new coronavirus.

② A child was known to be in with someone infected by hospitals and health centers.

③ Your family is known to have been in close contact by hospitals and health centers.

④ A child has a fever of about 37.5 ° C.

⑤ A strong (fatigue) and stifling (breathing difficulty)

Symptoms of cold and a fever of around 37.5 degrees have continued for more than 4 days (including when you have to continue to take fever reducing medicine).

Call "new coronavirus consultation health center".

- 5 Have the child at home do the following:

① Help with housework.

② Do not go out as much as possible.

③ Do exercise

④ Take care of you and your family's mental and physical health.

⑤ Do not use your smartphone or play games for a long time.

⑥ Be careful not to cause a fire.

6 To stop the spread of the new coronavirus, keep the following in mind.

① Please make sure you get enough sleep and eat a balanced diet

② Hand washing is important. Please wash your hands frequently with soap or alcohol disinfectant when you go home, before and after cooking, or before meals.

③ Refrain from going to places with large crowds and poor airflow

④ Keep the air in the room moving.
